Your shipping box contains the following items:

- SE350
- Material box, including printed documentation

If any item is missing or damaged, contact your place of purchase. Ensure that you retain your proof of purchase and packing material. They might be required to receive warranty service.

First glance

Server front view:
- 10G SFP+ LOM package

Server rear view:
- 12V power distribution module (PDM)
- -48V power distribution module (PDM)

Note: Depending on the configuration, the illustrations above might differ slightly from your server.

Antenna connectors are available on wireless enabled model only
Setting up the System

1. Install the required server components.
2. Refer to the following guides according to your request.
   • Rail Installation Guide
   • Booked-Stand Configuration Installation Guide
   • DIN Rail Configuration Installation Guide
   • Wall-mounted Configuration Installation Guide
3. Connect the cables.
4. Refer to the relevant documentations to activate your server.
5. Turn on the server.
6. Connect the server to the network.
7. Configure the server.

For detailed information about installing hardware options and configuring the system, see the following website:

Technical specifications

Dimensions and weight

- Height: 43.2 mm (1.7 inches)
- Width: 209.0 mm (8.2 inches)
- Depth: 376.1 mm (14.8 inches)
- Weight (depending upon configuration):
  - Maximum: 3.6 kg (7.9 lbs)

Processor

Your server comes with one Intel® Xeon® processor D-2100 product family.

Memory

- Minimum: 8 GB
- Maximum: 256 GB
- DIMM types:
  - PC4-21300 (single-rank, dual-rank), 2666 MT/s, error correcting code (ECC), double-data-rate 4 (DDR4) registered DIMM (RDIMM)
  - PC4-21300 (quad-rank), 2666 MT/s, error correcting code (ECC), double-data-rate 4 (DDR4) load reduced DIMM (LRDIMM)
- Slots: Four DIMM slots

Storage

- Supports up to two M.2 SATA/NVMe Data adapters
- One M.2 Single/Dual Boot adapter

Second Edition (April 2020)
